## Starry Skies Supplies

Start with some simple supplies to help learn about, be able to see, and keep track of your findings.

Use a **notebook** to keep a sky journal and track the moon, weather, sunrise & sunset times, faces in the moon, constellations, etc.

Use **binoculars** when trying to look up close and study the sky.

A **telescope** is a detailed way to watch the night sky up close

## For added FUN

Fill an inflatable pool with blankets and pillows and bundle up as you gaze at the night sky.

## The Night Sky: Star Wheel

Use this wheel to understand what constellations can be viewed at what time of year.
